5. Job centric Courses
6. Be Corporate ready

## What is SYNOVED Learning Solutions?

### 1. SLS is based on ODM model

ODM Means On-Demand Training with Mentorship

#### What is ODM :

ODM learning is an approach that enables you to learn in a way that is tailored and optimized just for you. It is next-level conventional class room training. It provides access to Global standard On Demand courses, which can be accessed from any device, at anytime and Get practical guidance from Industry Experts, who knows exact applicability of that technology, So no more theoretical knowledge. Start building actual project with all IT standards, while you are learning. You will not be fresher anymore when join any organization.

#### a. Why On Demand Training?

- ✓ Just in Time Learning
- ✓ Access whenever you are ready, have time or exact moment you need it

- ✓ Access from anywhere and any device, be it mobile or Laptop or Tab
- ✓ Lifetime access to training materials
- ✓ Handpicked training programs to stay up-to-date and fulfil your training needs, which makes you to withstand in Global IT market without any hesitation
- ✓ Transitioning large volume of traditional classroom based content to flexible, technology- enabled enterprise wide platforms, which offers Anywhere, Any Time and Any way access to self tailoring Learning experience, designed to meet individual and industry level needs

## 2. Advantages of SYNOVED Learning

- **Time :** Just in Time Learning  
Trainers are not available every time you need, but on Demand training materials are always available. Just start your device, go to any section. Visit any section with no restrictions.
- **Pace :** Freedom to learn according to your pace  
Learn with your own pace. No need to match pace of your fellow learners, which happens in Classroom training. **Start, Pause, Rewind.** Do whatever you want until you are comfortable with the concept.
- **Remote and Offline access:** Anywhere- Anytime remote access to global courses  
No need to go anywhere to attend training program. Just Seat at your home, office or wherever you are.
- **Mobile Learning**  
All training materials are available mobile/ tab/ IPAD compatible.
- **Learning Retention:** Retention of all the learning  
Study says, Compare to In-person training, learners retain more than 90% of what they learn, when they use it immediately. So with On Demand training, parallel to your learning, you can apply concepts you're learnt in actual practical assignments.

➤ **Courses always up to date**

All the training materials are always up to date with recent technology changes. So in future, if any new version of technology of any course upgraded, courses will be updated accordingly.

➤ **Help is still at Hand:** Industrial expert Mentors, just a click away

You are learning online on demand courses that do not mean you are alone. Our industry expert mentors having very vast practical experience are always with you via Group or One to one chat, Email, or Daily scheduled call. We will create a corporate culture during your learning phase. So you will not be new to corporate life, when joins any organizations. Mentor knows In and Out of each process followed in IT industry. You will always profit from their knowledge.

***They will help you to grow as a Person and become the Best version of yourself.***

You will get familiar to actual delivery process happening in organizations, SDLC process etc.

➤ **Lifetime access to course materials and SYNOVED Learning community :**

You will get lifetime access to our courses, training materials. You will also be part of SYNOVED Learning community for lifetime, where you can share your thoughts, learn from other's experiences, Get information of Job vacancies, Post Job requirements, stay in touch with Mentors and many more.
